

Getting to know OASE

Getting to know OASE means heading out into the countryside. More specifically, it means paying a visit to Germany's Tecklenburger Land, a region blessed with a plentiful supply of water in the form of canals, peat bogs and wetlands. These surroundings are crucial because water is at the heart of our business.

With water, we are truly in our element: it is the focus of our research and development, the touchstone of our business activities and the living environment we create. With water as a common thread, we design stylish aquariums featuring the latest technology for novices and professionals alike. We take our inspiration from nature, our customers and the aquatic animals themselves. Day in, day out.

A CLEAN DESIGN TO COMPLEMENT YOUR HOME

OASE HighLine aquariums

However you picture the ideal underwater world for your home, OASE's extraordinary designs allow your imagination to truly take flight.

The sophisticated design of our HighLine aquariums perfectly complement every interior. Its modular format makes the aquarium easy to install, with all technology subtly concealed. This clean appearance immediately creates a relaxing environment, while also introducing an element of the natural world into your living room.

High-quality materials

Aluminium cover with a choice of either Classic or Premium lighting, and an aluminium effect strip to cover the gravel and water edge

Feeding made easy

The food flap makes it easier to scatter food—ideal in combination with the OASE FishGuard automatic feeder

Concealed technology

A dry shaft with a floor inlet hides products and connections out of sight

Convenient design

High-quality push-to-open doors, adjustable feet and optional drawers for tidying everything neatly away

Practical features

The pull-out floor is quick to clean. Includes sealed waterproof base and accessory hook

Sizes

125 l

175 l

200 l

300 l

400 l

Appearance

White

In this neutral colour, the glossy surface is a perfect fit for both minimalist and extravagant surroundings.

Anthracite

This colour emphasises a room's most elegant highlights, while being a stylish feature in its own right.

Oak

With this natural tone, your underwater world appears all the more authentic.
