Getting to know OASE

Here at OASE, we've always had a passion for water and for aquatic environments and design that meet the highest possible standards of technical precision – ever since 1949. We are designers by trade and composers by heart, both when it comes to creating fascinating water scenes in gardens and aquariums and in the field of professional fountain and water technology. From idea to implementation, from function to fascination, from technical to biological – we offer innovative presentations, smart products, premium quality and pure convenience, all under one roof.

The StyleLine aquarium is where style and individuality come together, in a highly customisable underwater landscape.

StyleLine – the perfect balance

Are you looking for first-class technology, highly detailed workmanship and linear designs? Our StyleLine aquariums stand out because of the perfect balance they achieve between all these components. This new range offers ambitious beginners the ideal introduction to aquatics.

Internal and external values – how you can benefit from StyleLine

Flush design

Unique among this class of aquariums.

Minimalist base cabinet

Elegant push-to-open function without intrusive door knobs

Secure and discreet

Attractive and extremely stable feet with an aluminium look.

Convenient access

Sliding cover made from high-quality glass.

Best plant growth

LED lighting in constant white daylight at 6500 Kelvin.

Easy to keep clean

OASE's best filter technology with integrated heater. Cut-out for the internal filter or to connect an optional external filter.

Plenty of storage space

The high-quality "Made in Germany" base cabinet provides plenty of storage space, an integrated pull-out shelf and well-thought-out details such as cut-outs for cables.

StyleLine – compact and consistent

Choose between two sizes, depending on your personal preferences and the space available. Regardless of which you choose, both offer a perfectly tailored combination of technology and design.
